# GLOBALLINK TMS

GlobalLink TMS provides an all-in-one GenAI-powered solution to initiate, automate, control, track, and complete all facets of the translation process, providing users with an innovative solution for managing translations with minimal effort and virtually no IT overhead.

## Unleash the Power of GenAI for Your Translations

GlobalLink AI Solutions make cost-effective and high-speed translations one click away, getting you instant results when and where you need it most. Utilize GlobalLink TMS' industry-leading neural machine translation, the LLM of your choice, and humans-in-the-loop to produce higher-quality results, reduce localization costs, and speed up time-to-market.

| AI Data Collection and Annotation | Predictive Text Optimization | Chatbot Optimization | Voice Search Training | Neural Machine Translation | Humans-in-the-Loop |
